It’s here – the essential new resource for everyone needing guidance on the new MiFID regime. With comprehensive, authoritative guidance throughout, this special report is the best way to gain a deeper understanding of what MiFID and the new MiFID regime is really about. This is a must for everyone who needs to understand and analyse the new regime or has responsibility for implementing and enforcing it. For less than the price of an hour’s consultancy you can have targeted information at your fingertips, ready for immediate use as and when issues arise. You won’t just be saving time – by doing away with the need for costly external advice, you’ll be saving precious resources for your company too.

The Regulation of Investment Services in Europe under MiFID: Implementation and Practice is the essential tool – not just for financial services lawyers but for everyone that needs to understand the new regime from compliance professionals to consultants specialising in the field.

By tapping into the same resource used by all these professionals, this is a unique opportunity to make sure you stay right at the heart of the subject.

Practical, expert authorship: Dr Emilios Avgouleas, general editor of this essential new resource, is a very well-known and respected commentator on European financial services law, with wide practical experience. He is Reader in International Financial Law at the University of Manchester and has been a senior practicing lawyer with leading law firms. He is also the Rapporteur of the International Securities Regulation Committee of the International Law Association (ILA). As general editor, he has assembled a distinguished Pan-European team of regulators, officers of industry associations, academics and practitioners, who together bring
formidable expertise to this report.

Contents include:
Comprehensive, authoritative and practical guidance of the new EU regime for the regulation of financial services following the implementation of MiFID. Chapter contributions from leading legal and industry practitioners and regulators from across the EU. Clear guidance about the application and enforcement of MiFID’s rules. Detailed analysis of the new best execution and related conduct of business obligations of EU based investment services firms. The only work to provide analysis and guidance of the regime with Pan-European coverage, this unique Special Report also contains expert advice on the following complex areas: The operation, and continuous supervision of Systematic Internalisers. The supervision of the cross-border provision of investment services. Best execution of client orders and related conduct of business obligation. The regulation of outsourcing. The new tied agents’ regime. All the advice you need to stay ahead of the game and keep your firm or client in step with the new regulations.
